"Price has crafted something that is genuinely unique and original... Colin is one of those rare gems of independents cinema, one that rings new ideas, talents and faces to the screen... simply superb!"

Horror Talk

Prussian Projekte is please to announce its first film screening, alongside its running exhibitions programme, with a screening of Colin. Already a worldwide phenomenon with huge media coverage, Colin is the infamous £45 zombie movie, told from the zombies perspective. It is a film truly like no other.

'Colin' is bitten by a zombie, dies and returns from the dead. We follow him as he wanders through suburbia during the throes of a cadaverous apocalypse.

Through his encounters with objects, places and people we learn who Colin was and more pertinently, what he now has become. Including a broad daylight zombie versus human street battle, an epic household siege and bags of gore, Colin is the must see zombie phenomenon of the year.

Prussian Projekte is a new gallery space located in Sherwood, Nottingham, Focused on showing a running programme of video orientated exhibitions, artist videos and screenings of independent film.
